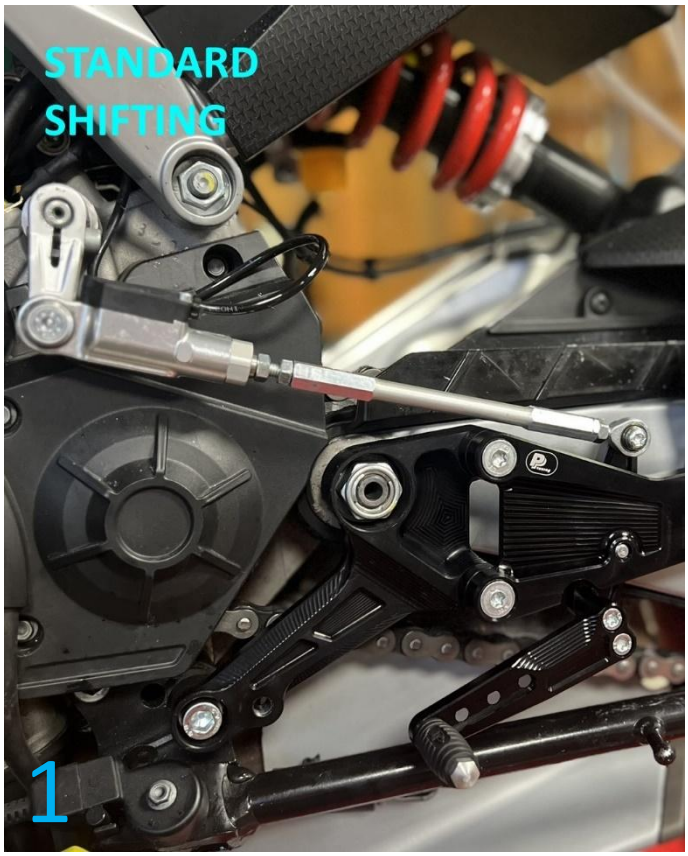
Installation instructions for
Rear Set Aprilia RS 660 (2021-), Part Nr. 505

Installation the left side with the shifter as shown in pic. 1 (OEM shifting)



If you decide to remove the side stand, you must replace it with a washer (Nr. **123201010**) - can be ordered separately.

For installing the right side with brake lever (pedal), follow the steps in pic. 2 - 4. Install the original brake sensor cover on to the sensor holder. Secure both screws (M5x16 and the original brake sensor cover screw) with Loctite 243..
