" When helping to prevent the spread of infection, the surface matters DuPont™ Corian®: the ideal surface for healthcare environments E B very year too many patients contract hospital acquired infections during a hospital stay. But clean, sanitary surfaces can help to prevent the spread of infection. DuPont™ Corian® is a non-porous surface that, when properly cleaned, does not support the growth of mould, mildew and bacteria and therefore helps to reduce the spread of infection. The surface that works virtually everywhere DuPont™ Corian® can be used for reception counters, patient bathrooms,... "

" A walk through the hospital T he unique solid structure of DuPont™ Corian® makes it an ideal choice in a wide variety of healthcare settings. Not only does it look beautiful, it is non-porous and does not support microbial growth when cleaned properly. Corian® is low-maintenance, durable and easy to decontaminate - key performance qualities that help ensure surfaces retain their value over time. Exterior cladding The superior durability of Corian® withstands weather, creating rich, dramatic exterior facades that require less maintenance than other surfaces. Tough and long lasting, Corian®...
