

# Installation instructions for Rear Set Aprilia RSV4 with reverse shifting, year 2017 - Part nr. 5070

We would like to thank you for purchasing PP Tuning rear sets. Please take a moment to read the assembly instructions. Following these instructions will ensure trouble free operation of this product and extend its working life.

## Left side installation

Remove the original rear set and mount the PP rear set as shown in picture No. 1 and 2. For assembly the Quickshifter use screw M6x40 and washer  $\varnothing 12 \times 9$ mm, which are packed with rear set.

## Right side installation

Pictures No. 3-5 show the correct way to install the right side. Remove the brake sensor from OEM footpeg marked with red arrow No. 1. This brake sensor install to PP rear set. By turning the excenter (marked with red arrow No. 2) you will achieve the correct operation of the brake lever. The lever must not have upward play. Use the aluminum part marked with red arrow No. 3 to adjust brake sensor that switches the brake light. The aluminum part can be moved up and down as needed.
