

## Installation instructions for Rear Set Kawasaki Z900, year 2020 - Part nr. 652

We would like to thank you for purchasing PP Tuning rear set. Please take a moment to read the assembly instructions. Following these instructions will ensure trouble free operation of this product and extend its working life.

### Left side installation

Remove the original rear set and mount the PP rear set as shown in picture 1. Location of the rear set is same as the original one.

### Right side installation

Remove OEM rear set according to picture 2 and install brake light switch according to picture number 3.

Brake pump must be placed perpendicularly on the brake pedal. For adjustment and right step can be moved by the brake cylinder to the left, see red arrow on the picture 4. Last step of the installation is adjusting the correct function of the brake light according to picture 5.

And the last important information: Enjoy this product and drive carefully!
