

4 Series MSO Limited Time Offer

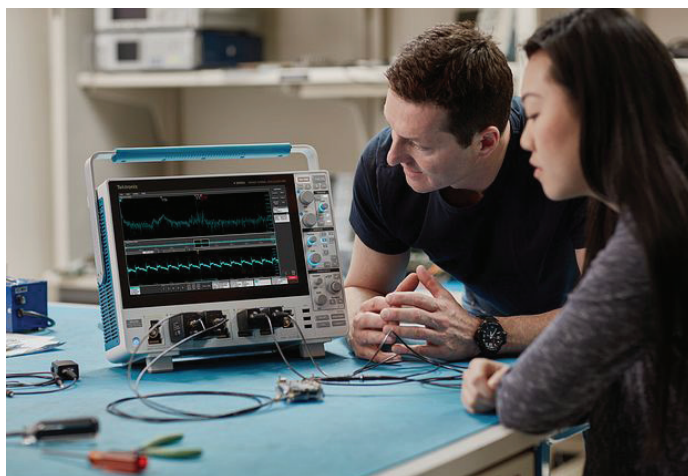

Own a 4 Series MSO for 60% Off Regular Price

Tektronix Encore Stock is Limited – Secure Your Order Today

Experience a big high-res touch display and 12-bit ADCs with a broad array of available decoding and analysis options.

Quantities are limited, so don't miss this opportunity to own a 4 Series Mixed Signal Oscilloscope for a fraction of the normal price. This is the perfect way to upgrade your bench with a versatile touchscreen scope that's ready for all your measurement needs.

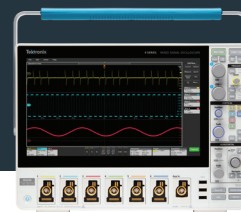

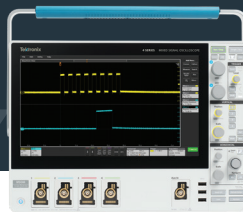

What you get:

- 4 Series MSO with 4 channels (MSO44) or 6 channels (MSO46)
- 1 GHz (Opt. 4-BW-1000) or 1.5 GHz (Opt. 4-BW-1500) bandwidth
- Built-in arbitrary/function generator (Opt. 4-AFG)
- Extended record length of 62.5 Mpoints (Opt. 4-RL-1)
- Wideband spectrum analysis up to 500 MHz (Opt. 4-SV-BW-1)

Additional software options may be added to these instruments at a 60% discount. (Valid on individual SW options only.)

These units have been factory-reconditioned and certified through the Tektronix Encore program with 3-year factory warranties, and can also be purchased through our authorized partner network.

Tek Encore

KEY SPECIFICATIONS

	MSO44	MSO46
Analog Channels	4	6
Analog Bandwidth	1 GHz or 1.5 GHz	
Sample Rate (All Channels)	6.25 GS/s	
Record Length	62.5 MS	
ADC Resolution	12 bits	
Spectrum Analysis Capture Bandwidth	500 MHz	
AFG Signals	Arbitrary, Sine, Square, Pulse, Ramp, Triangle, DC Level, Gaussian, Lorentz, Exponential Rise/Fall, Sin(x)/x, Random Noise, Haversine, Cardiac	
Display	13.3" 1920x1080 capacitive touch	

Add any of these options for 60% Off

SERIAL DECODING	
4-SRAERO	Aerospace (MIL-STD-1553, ARINC 429)
4-SRAUDIO	Audio (I2S, LJ, RJ, TDM)
4-SRAUTO	Automotive (CAN, CAN FD, LIN, FlexRay, and CAN symbolic decoding)
4-SRAUTOSEN	Automotive sensor (SENT)
4-SRCOMP	Computer (RS-232/422/485/UART)
4-SRCXPI	CXPI (decode and search only)
4-SREMBD	Embedded (I2C, SPI)
4-SRENET	Ethernet (10BASE-T, 100BASE-TX)
4-SRESPI	eSPI (decode and search only)
4-SRETHERCAT	EtherCAT (decode and search only)
4-SRI3C	MIPI I3C
4-SRMANCH	Manchester (decode and search only)
4-SRMDIO	MDIO (decode and search only)
4-SRNRZ	NRZ (decode and search only)
4-SRONEWIRE	One wire (1-Wire decode and search only)
4-SRPM	Power Management (SPMI)
4-SRPSI5	PSI5 (decode and search only)
4-SRSMBUS	SMBus (decode and search only)
4-SRSPACEWIRE	Spacewire (decode and search only)
4-SRSDLC	Synchronous Data Link Control Protocol (decode and search only)
4-SRSVID	SVID
4-SRUSB2	USB (USB2.0 LS, FS, HS)
4-SREUSB2	eUSB2.0 (decode and search only)

ADVANCED ANALYSIS	
4-3PHASE	Three-phase electrical analysis
4-PWR	Advanced Power Measurements and Analysis (includes all 4-PWR-BAS measurements, FRA, and Magnetics)
4-MTM	Mask and Limit testing
4-VID	NTSC, PAL, and SECAM video triggering
4-PWR-BAS	Power Measurements and analysis
4-SV-RFVT	Spectrum View RF vs. Time traces, triggers, Spectrograms, and IQ capture
4-WBG-DPT	Wide Bandgap SiC/GaN Double Pulse Test Measurements and Analysis

TERMS AND CONDITIONS

- This offer is applicable to Encore MSO44 or MSO46 units configured with options 4-BW-1000 or 4-BW-1500 , AFG, RL-1 and SV-BW-1
- Additional individual options may be configured with the unit, excluding option bundles
- All quotes must have an expiration date no later than June 30, 2023
- May not be combined with other discounts or promotions
- Tektronix reserves the right to change or cancel this program at any time.
